WELCOME TO PEASE WAREHOUSE OUTLET

We would love to help you plan your new kitchen!

By answering a few questions and giving us some dimensions, one of our qualified kitchen designers will be able to plan your dream kitchen for you.

Please fill out the following information:

Name _____

Address _____

Phone # Home _____ Cell _____

How long have you lived in the home?

How long do you plan to stay in the home?

How old is your kitchen?

What is your budget?

What is your time frame? How soon do you hope to complete the kitchen?

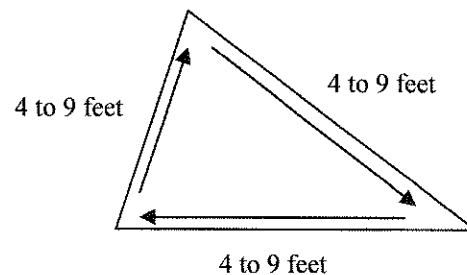

What is your style?

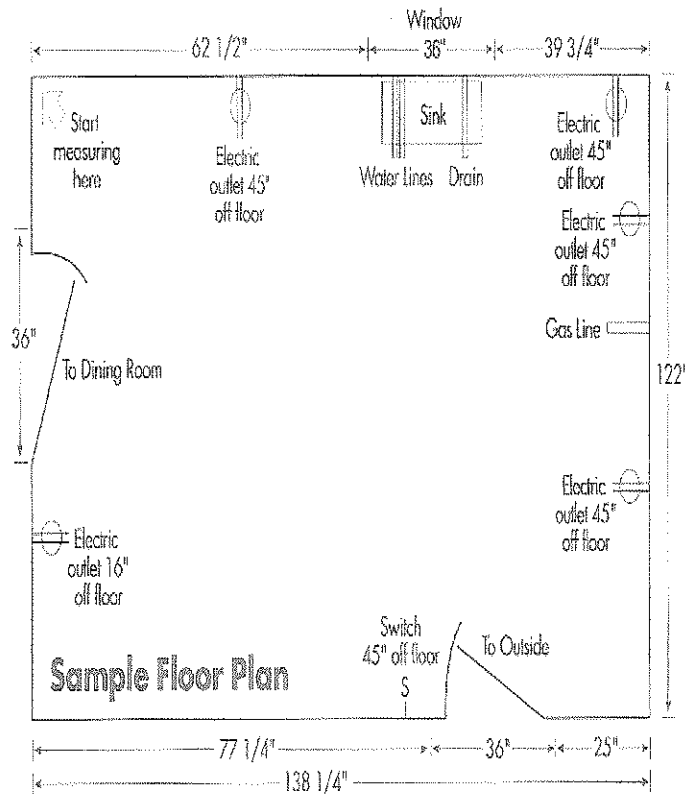

What type of cabinets are you looking for? Oak Maple Cherry Painted or Stained

What is your countertop preference? Granite Laminate Quartz Solid Surface Other

National Kitchen and Bath Association
General guidelines for designing your new kitchen:

- At least one work triangle is in place.
- Total distance between points does not exceed 26 feet.
- Traffic patterns do not interfere with triangle.
- Island/peninsula counters do not interfere with triangle.

Accurate information can help you be sure that your dream kitchen will come true. Your kitchen design specialist will need to know all the following details.

- * Room measurements— Use the sample floor plan as a guide and draw a sketch of your kitchen on the attached graph paper.
- * Measure every wall, start in the left corner, write the measurements on your sketch in inches.
- * Show location and size of all windows and doors.
- * Measure from the corner to the center of your sink
- * Measure from the corner to the center of the range or cook top. Indicate the location of the refrigerator
- * Measure from floor to ceiling. Is there a soffit or dropped ceiling?
- * Is there a basement below the kitchen or is it on a slab?

Appliances and other Fixtures

Measure and fill in the information below:

	Type	Size (W x D x H)	Hinge Position (facing L / R)
Range			
Refrigerator			
Cooktop			
Wall Oven			
Microwave			
Sink			
Dishwasher			
Exhaust Hood			
Compactor			
Freezer			
Disposal			
Other			

When you are finished gathering the information, bring it in to us (or you can fax or email the information to us) One of our designers will create a design for you and enter it into our computer design system. We will contact you so that you can make an appointment to come back in to discuss the design, price, and time frame for your new kitchen.
